Special Announcement for Advanced Reservations

Coming in October:

Intermountain "N" Cab Forwards-
Two Versions

-- "DC" Only, will run on any "DC" layout, will NOT run on any "DCC" layout. If you try to run on a "DCC" layout you might burn out the motor. This model has a lower Retail price because adding "DCC" Electronics to a model is expensive.

-- "DC" / "DCC" Dual-Mode. When running on "DCC" has all the functions You would expect. When running on "DC" trackage, you have no control over any of the "F" Functions, but will have an automatically generated "chuff: "airpumps", short automated whistle on start up. Higher start up voltage of about 8v due to all the electronics on board.

These models will sell out quickly.

Intermountain Railway Company

AC-12 Southern Pacific Cab Forward Locomotives - DC

85-79009	This version is painted black with graphite smoke box, silver pilot, and large SOUTHERN PACIFIC lettering on the tender.	N	339.95	271.96	10/12
85-79010	 This version is painted black with graphite smoke box. The cab number is 4284 and the small 'SOUTHERN PACIFIC' lettering is on the tender sides.	N	339.95	271.96	10/12
